

CONSTANZA SOLARI

Actress

Profile

I started acting and doing gymnastics when I was about 4 years old, I trained in different clubs and studied acting in Escena Peru. When I moved to the United States from Peru in 2021, I started to take acting more seriously, that's when I began to start doing musicals and plays. From then on, I've participated in 3 musicals, 2 plays, and 1 short film. I began to study acting in the US in 2024, and did my first play as the lead there in 2025. Now I'm focused on an acting career and hope that I make it far.
