## EDUCATION

**Xi'an Jiao-Tong Liverpool University (UK-China university)**

- Bachelor in China Studies, Stage 2
- Attending after school activity in 'YanJu Theatre' for enhancing acting skills

## SKILLS

1. Acting: ability to express emotions, creative thinking, voicing, improvisation, dramatic monologues
2. Languages: Proficient in English, Azerbaijani and Russian, some Chinese and Japanese
3. Creative: did drawing and pottery art. Trying in storytelling, scriptwriting, singing (have a passion and practicing singing 'I am still here'), dancing.
4. Sports: bike riding, badminton

## EXPERIENCE

I don't think I have an experience in official performing (due to family reasons), but I have performed in some school plays like in fairy tales and theatre. I tried to create own 'movies', including their 'trailers', but they were unprofessional and all I used was phone for both recording and production. To conclude, people would describe me as a sensitive individual (I'm very deep), who has a gentle and childish voice.

## OBJECTIVE

My goal and desire are to play brave, but kind and pure hearted Jim Hawkins, based on Disney's 2002 'Treasure Planet'. When I first saw Jim in this animated film, I found inside him something that majority would not really consider: his feelings, emotions, self-expression, look for yourself, deepness and compassion. I may not know how to build an invention or how to be a 'man', but I'm eager to bring a soul into character in life action remake, addressing to billions of boys of how valuable they are in own way and that their feelings matter. I found myself in Jim, even if we have different interests. I'm ready to bring a soul and heart to compassionate Jim Hawkins from Disney's 2002 'Treasure Planet'.
