

VERA CASTRO

up-and-coming actress

ABOUT ME:

I am currently in my final year of secondary school, and in the afternoons I attend theatre classes. Each June, we perform a play in front of an audience. I believe that my empathy allows me to connect more deeply with the characters I portray. My aspiration is to pursue a career in professional acting, in order to inspire and move people through my performances and interpretations.

SKILLS

I have an incredible ability to learn, which has allowed me to acquire a wide range of skills. I can play the piano and the recorder, as well as dance, draw, cook, sew, crochet, create crafts, garden, and bake — all of which I have learned on my own.
