## PROFILE

---

I have had extensive performing arts training in a range of disciplines such as television acting, theatre acting, dance, and singing. I attended television and theatre classes from the age of five and was trained by a variety of successful actors and coaches.

During school, I participated in my performing arts school's theatre productions and worked on Emmerdale. I continued acting through my teenage years by participating in my school's musical theatre society, and have recently worked as an extra in an upcoming American feature film.
