Myke Robb

Entrepreneur & Entertainer

To whom it may concern,

My name is Myke Robb entertainer & entrepreneur and I love this entertainment & fashion industry. This world of ours is very unique, different and most of all full of unexpected changes that will keep you on your toes for generations to come and that's why you should network and work with a talent that has a work ethic and passion that adapts to those unexpected changes.

As you take the time to look over my resume you can see and feel the passion and experience of my career that I briefly shared from my nearly twenty year career. When I came into this industry I came in as a very green talent on the outside but on the inside, I came in with the aggression and tenacity to learn this business in various ways from all walks of life by any means necessary. No matter who I have worked with or what project/production I have been apart of I have always kept an open mind and remained a student of the game with a sponge for a brain to soak up as much knowledge as I possibly can. With these skills and attributes it has allowed me to grow from a fashion model to the passionate entrepreneur you know and see today.

In conclusion, as we all move forward within this fashion and entertainment industry, you should always remember to keep in mind that your first appearance/impression is everything and everlasting. By knowing so you should continue to work with a talent that understands those important aspects and I encourage you to work with a talent that will give you nothing less than the energetic & unapologetic energy that your project deserves.

Sincerely Yours

Myke Robb
