- Admitting patients and ensuring that the care for the patients is well coordinated with the nursing staff.
- Provided basic care under the direct supervision of a licensed nurse.
- Performed duties such as monitoring of health status, feeding, bathing, dressing, grooming.
- Check patients' vitals and blood sugar.

RESEARCH EXPERIENCE

May 2023 - July 2023

Population Health Equity Summer Research, The University of Alabama
Undergraduate summer research Advisor: Dr. Martha Crowther

With a focus on grant writing, I conducted research on the minority health aging group and the stress placed on EMS. Worked with faculty and graduate students. Attended professional development work panels. Presented a poster.

July 2023

Community and Academic Partners - Research fair

June 2024 - July 2024

Health Professions Readiness Education Program (HealthPREP), Emory University School of Medicine

Undergraduate summer research Advisor: Dr. Vanessa Fleites

In my experience with HealthPREP, I've found that its purpose is to support students in gaining admission to health-related graduate and professional schools. Through this program, I've had the opportunity to enhance my skills, making myself more competitive for admissions. I've received resources to improve my performance on admission tests, engaged in professional development activities, and gained exposure to primary care. Additionally, I've participated in public health seminars and workshops. As I near the completion of the program, I'm excited to deliver a research proposal and presentation on social determinants of health and health disparities.

Leadership

Dare to Diagnose

Social media chairman, August 2019-Present Vice President, June 2023-Present

In my role, I assisted and executed social media marketing campaigns to promote the club's events and activities. Additionally, I designed and distributed flyers to advertise upcoming events. I collaborated with the club's treasurer to develop a responsible and ethical fundraising strategy. Furthermore, I coordinated with the club to recruit and manage guest speakers. I was responsible for setting and monitoring the club's goals, running club meetings, delegating tasks as necessary, recruiting, training, and retaining members. Lastly, I maintain regular communication with our president.

Student Support Services TRIO Program

Mentor, June 2022-Present

I help students develop study and time management skills. I work with them to create a success plan that meets their individual needs. I evaluate their progress throughout the mentoring sessions. I communicate with program staff about mentee concerns and/or progress.
