 EMMA\_GUILLOD

Cinema is for me a great source of inspiration and hope, I volunteer at the theater of my city and love to go in the projection room to watch what's happening and dream that one day I'll be on the screen. I acted in many plays, in highschool I chose the drama speciality and each week is an opportunity to improvise my acting skills. I am gonna pass an highschool final diploma in drama and english literature. In the end of my highschool's last year, I am gonna apply to a bachelor in cinema and english at the 'Sorbonne' university in order to make cinema my job.

I know that acting in a play and acting in a movie are two different things but those arts count for me equally. I often write screenplays and dream of directing my own movies one day.
