### Personal Statement

Being motivated, creative & understanding to be mindful. These are the skills and ideas I hold strong when entering a workplace. As a person i'd describe myself as well within a team, quick to help and serve when needed, but can work alone just as comfortably! I strive to perfect what I do in creating a welcoming environment , learning to improve my trade day to day! Im looking for a job that has its challenges that can branch me into the right direction of learning and developing, a job that can keep me busy and helpful to not only myself but others!

## **Skills**

I enjoy creating original artwork on paper using various mediums, ink, graphite, watercolours and acrylic. Alongside drawing on my digital art wacom ( a digital drawing pad ). This also includes me painting on a larger scale creating multiple murals on my wall growing up, anything art related I consider myself immensely happy to be a part of. My other skills consist with communication and socialising. I'm a people person and love to provide a service for people in need of any support and help! The world can be a tough place so I believe it's a skill to be able to help people through good and bad and being there when needed.
