

ABOUT ME

After developing a passion for playing the piano at 7 years old, I decided to challenge myself in other areas of the arts. I began performing monologues as early as 3rd grade. I would soon enroll in a performing arts middle school where I studied theater and would continue to study theater during my tenure in high school. In 2022, I began working at the American Immersion Theater. To date, I have been featured in 5 TV Shows, 4 Commercials, 11 films, 3 stage plays and 60+ Live Murder Mystery shows.
