Hello! Thanks for viewing my resume! I had always wanted to become big and choose acting. But I am always to scared to get into any of the acting clubs. But as I am growing up, I found myself leaning to others and talking more. I practiced acting by myself and want to pursue into it giving it my all. I have many talents to share to the world. If any of my acting works are in different states I am happy to go and become hard working.
