

# Anton Presură

Master Student

Energetic, ambitious architecture student who is eager to learn new skills and is effective under pressure with the ability to multitask.

## EXPERIENCE

### Student Assistant, SIDADHOK - Delft

September 2024 - Present

SID@Hok is the student IT support at TU Delft's Architecture faculty, offering software and hardware assistance.

- Conducting standard troubleshooting for Windows and software.
- Resolving server related issues, including printers and WiFi networks.
- Handling hardware replacements: SSDs, RAM, thermal paste application, and laptop key replacements.

### Team Viability Leader, Team Casa - Eindhoven

March 2022 - December 2022

Team CASA is a student team within TU/e developing a comfortable, affordable, sustainable alternative for housing. With its first project CASA 1.0 located in Helmond, offering sustainable social housing.

- Lead small team of students to achieve the following:
- Make market analyses of the smart energy systems industry
- Check viability of our upcoming project involving smart energy systems
- Interview professors and potential stakeholders involved in producing such systems

### Financial Manager, Team Casa - Eindhoven

November 2021 - September 2022

- Prepare cash flow statements for projects
- Apply for subsidies and contact companies
- Advise board on financial decisions
- Allocate budget to subteams

### Intern, ComposTerra - Maastricht

July 2022 - August 2022

Composterra is a biomaterial startup repurposing bio waste into different functional products, such as plates, cups, and packaging

- Gathered data for market research and analyzed it
- Experimented with company valuations of Composterra
- Learned how to contact clients and follow up

Illustrator

Indesign

Premiere Pro

Python

Netlogo

## LANGUAGES

Dutch- Bilingual

Romanian- Bilingual

English- Excellent

French- Intermediate

## **Treasurer, Green Week 2022 - Eindhoven**

October 2021 - June 2022

GO Green Office is an environmental organization within the TU/e promoting sustainability. Every year, on campus, GGO organizes a week with activities to further emphasize the importance of sustainability.

- Organize events with team to promote sustainability
- Allocate budget to organized events
- Ensure sufficient funds are available to meet requirements

## **AutoCAD Designer, Agrion B.V. - Mariahout**

November 2020 - January 2021

Agrion is a company that produces and designs industrial sized livestock sheds in and around the town of Mariahout.

- Designed floor plans, sections and facades of industrial sized livestock sheds
- Communicated and implemented client ideas into design
- Designed prefab walls for factory production

## **Treasurer, Delta Scope Investment Group - Eindhoven**

September 2020 - August 2021

Delta Scope is a sustainable investment group within B&R Beurs, which is a student investment society within the TU/e.

- Monitored the group's risks and losses
- Ensured sufficient funds were available to meet ongoing operational requirements
- Ensured investment decisions were following sustainability guidelines
- Created an ESG checklist together with the team

## **Video Editor/Camera Operator, Fizica Cu Cristian Presura - Veldhoven**

April 2019 - August 2020

"Fizica cu Cristian Presura" is a YouTube channel producing educational physics videos in the Romanian language. Together with my father we created this channel, which currently has around 200.000 subscribers.

- Manipulated and edited film pieces in a way that was invisible to the audience
- Trimmed footage segments and put together the sequence of the film
- Learned the importance of Input music, dialogues, graphics and effects

## EDUCATION

### **M.Sc. Architecture, Urbanism And Building Sciences, TU Delft - Delft**

September 2023 - July 2025

Within this Masters degree I follow the Architecture track, meaning all courses fall within the faculty of Architecture, essentially making it a specialization. This degree is ranked 3rd in the world for Architecture studies by QS rating.

### **B.Sc. Architecture, Urbanism And Building Sciences, TU/e - Eindhoven**

September 2020 - July 2023

During my bachelors I followed all kinds of courses within the built environment, as the university had a large variety of elective packages, which I experimented with, resulting in obtaining a clear preference for architecture.

### **High School, Huygens Lyceum - Eindhoven**

September 2014 - August 2020

During my highschool I followed a technical profile, VWO/NT, whilst still taking art classes as an elective, which let me develop both my technical and artistic side

## CERTIFICATIONS

### **Delf B2 Certificate, Eindhoven**

March 2020

DELF is an official diploma awarded by the French Ministry of Education to certify the French language competency of candidates from outside France.

## COMPETITIONS

### **TU/e Contest, Eindhoven**

January 2022 - June 2022

For the purpose of this competition, me and a university friend pitched the idea of a plugin for digital planners to help prevent overstimulation in work environments. During this competition we had the opportunity to speak with a large number of companies, partnering with the TU/e contest, which helped us reach the finals. Unfortunately we did not win, however we did end up top 20 out of approximately 100 teams.

## RECOMMENDATIONS

### **Valerie Lenigk, Internship Supervisor**

“It was great working with Anton during his time at ComposTerra. As an intern, he was very communicative, on time and easy to get along with. He fits in well in a startup environment, and I am excited to see what happens in his future endeavors.”
