

Resume

Ella Temple

SPECIAL SKILLS AND HOBBIES:

I enjoy singing, dancing, acting, and making online videos. For sports, I love trampolining, netball, and football, while my hobbies include playing digital games, learning about science and medicine, reading, and caring for animals. I am a helpful person who likes helping the homeless with food and money and mentoring younger students. I am outgoing, a good team player, smart, quick to memorise things, and adventurous. These hobbies bring my personality to life as mentoring helps me grow my knowledge, helping the homeless makes me good at working with others, and reading helps me to memorise things quickly.

EDUCATION:

I have always done well at school, showing that I am a great student and confident leader. I was chosen to be an Eco Councillor and School Councillor, helping to make important decisions for the school and the environment. I am also a mentor, supporting younger students, and a House Captain showing that I am a great team player in my house. I am also a Reading Ambassador, helping to get other students excited about books, and I have won awards like the Headteacher's Award, Perfect Attendance, Reading Star, and the Earth Charter Award.

THEATRE:

I take part enthusiastically in both the school choir and Swish of the Curtain Theatre School. With the choir, I have gained performance experience at end-of-term assemblies, the Bournemouth Music Festival, the Bournemouth Pavilion, and the New Milton Music Festival. Through Swish, I have performed in Christmas shows at Glenmoor and Winton Secondary School, as well as "Swish Goes Pop" and "Wild Things" at the prestigious Lighthouse Theatre, where I played a young child and the Cat in the Hat. I also took part in "High School Musical" at the De Le Salle Theatre as part of the ensemble. I always give my all to these performances whilst having fun!

2 / 2

EXTRA:

I enjoy participating in classes such as singing, acting, and dancing! Singing has helped me become more confident and feel good about myself. Acting has made me comfortable speaking loudly and performing in front of people. And with dancing, I can really bring my performances to life using different movements and ways to express myself with my whole body! I also love to create online videos, my best video being a World War two poem put to a song to create the perfect suspense piece.
