WORK EXPERIENCE

Becker's Healthcare

WRITER/REPORTER

At Becker's, I spearheaded the company's new mental health website, conduct interviews with industry experts on the most pressing topics and innovations in the healthcare field and publish multiple pieces of content daily. I moderate panels at live events, record podcasts and host webinars while building connections with top voices in healthcare. I edit print copy and work with a team and individually to create high-performing content and improve the reach of the Becker's brand.

CONEXPO-CON/AGG 365, KHL GROUP

ASSOCIATE EDITOR

With CONEXPO-CON/AGG 365, I produced a weekly newsletter consisting of articles I researched, wrote and edited. I jumped in to the field of construction with no prior knowledge of the industry and was self-directed in my research, reporting and fact-checking.

City Bureau

CHICAGO DOCUMENTER

As a Documenter, I attend under-reported public meetings regarding the city of Chicago and report the pertinent information and decisions in a real-time format, via Twitter and the Chicago Documenters platform.

14 East Magazine, The DePaulia

CONTRIBUTING WRITER, ASSOCIATE EDITOR

I started as a contributor to both my university's award-winning magazine and its newspaper counterpart. I submitted lifestyle, local issue and feature pieces. I was then selected to be hired on as an Associate Editor, a role that consisted of pitching stories, fact checking and editing submitted pieces, designing various aspects of the digital magazine and collaborating with other editors and staff writers. Then, I was a part of a small team that spearheaded a weekly newsletter that contained school, local and national news, as well as recommendations, reviews and upcoming events.
