[LinkedIn Profile](#)

Multifaceted singer-songwriter, poet, and creative with a strong background in research, project management, and strategic communication. Although, I have a strong background in healthcare- My passion lies in storytelling through music, blending poetic lyricism with Neo-Soul and R&B influences. Experienced in analyzing data, coordinating global initiatives, and managing high-level projects—skills that translate into developing a sustainable music career.

EXPERIENCE

Center for Disease Control and Prevention, Atlanta, GA — *Research Fellow*

March 2023 - PRESENT

- Conduct research and analysis on public health policies and data trends to support decision-making and improve health outcomes.
- Instrumental in creating and launching a global mentorship program, connecting staff across 60 countries to foster professional development, knowledge exchange, and cross-cultural collaboration.
- Facilitated regional training sessions on policy development and public health strategies in South Africa, Cambodia, Atlanta, and Washington, D.C., ensuring culturally relevant and impactful learning experiences.
- Collaborated with multidisciplinary teams to develop recommendations for policy and programmatic interventions.
- Analyzed public health data using statistical methods and tools such as Excel and Power BI.
- Prepared reports and presentations for senior stakeholders, including scientific communities and government entities.

SKILLS
