

YEEZY

JOUSUF MOHAMED

DIGITAL CREATIVE | SENIOR TECHNOLOGY ARCHITECT (Ex-IBM)

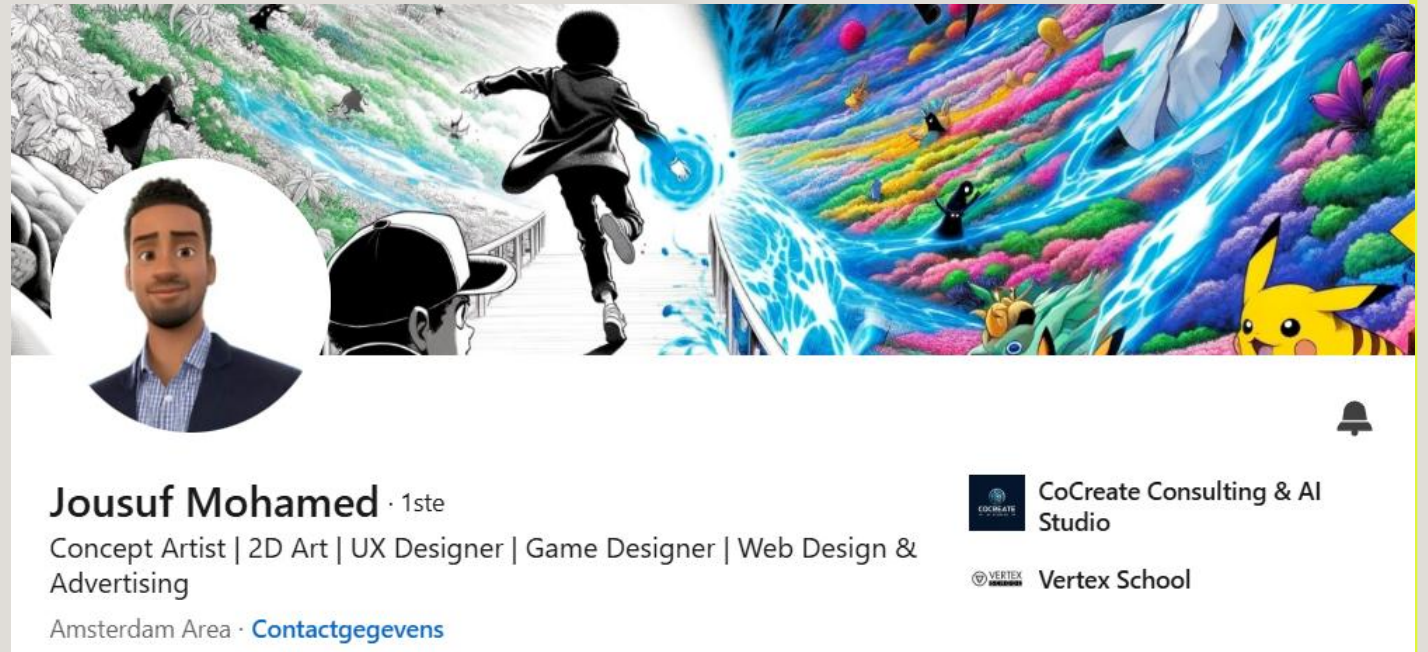

FOUNDER OF COCREATE AI STUDIOS

A character from Grand Theft Auto V, likely Franklin Clinton, is shown driving a blue convertible in Los Angeles. He has a beard, braided hair, and is wearing a white t-shirt and a gold chain. The word "PROPOSAL" is written in large, yellow, bold letters across the middle of the image.

PROPOSAL

- My name is Jousuf Mohamed, founder of CoCreate AI Studios, an ERITREAN-DUTCH art studio based in Amsterdam that designs:
 - Video games
 - Fashion – couture + sneakers
 - Manga & anime
- I would like to work for YZY as an AI Designer / Creative Director Supporter / Intern
- I am producing a 3D videogame for YZY, this is my portfolio but also live demo projects I am making, my Instagram is the best representation of my work but I will try to capture it here.
- Currently I work as a TECHNOLOGY ARCHITECT at the Dutch government, and I run the studio as my passion
- Ye is my biggest inspiration, I am making the game whether anyone will like it or not, it is my passion to create this. Call me if you want to set up a meeting, it would be an honour. +316 33498420, or email me at cocreate.aistudios@gmail.com.
- Or send an Instagram DM at @cocreate.aistudios
- I did not go to art school, I did a Masters in Technology & Business Management at Leiden University with a 4.0 GPA, worked for top-tier companies such as IBM in corporate consulting and Technology Architecture. Yet, I built the studio out of love for art, games & fashion.
- I did go to online game design school at Vertex but dropped out to do this studio instead of learn to work for another game studio, there were no game studios that worked on a YEEZY game so that's why I started my own company.

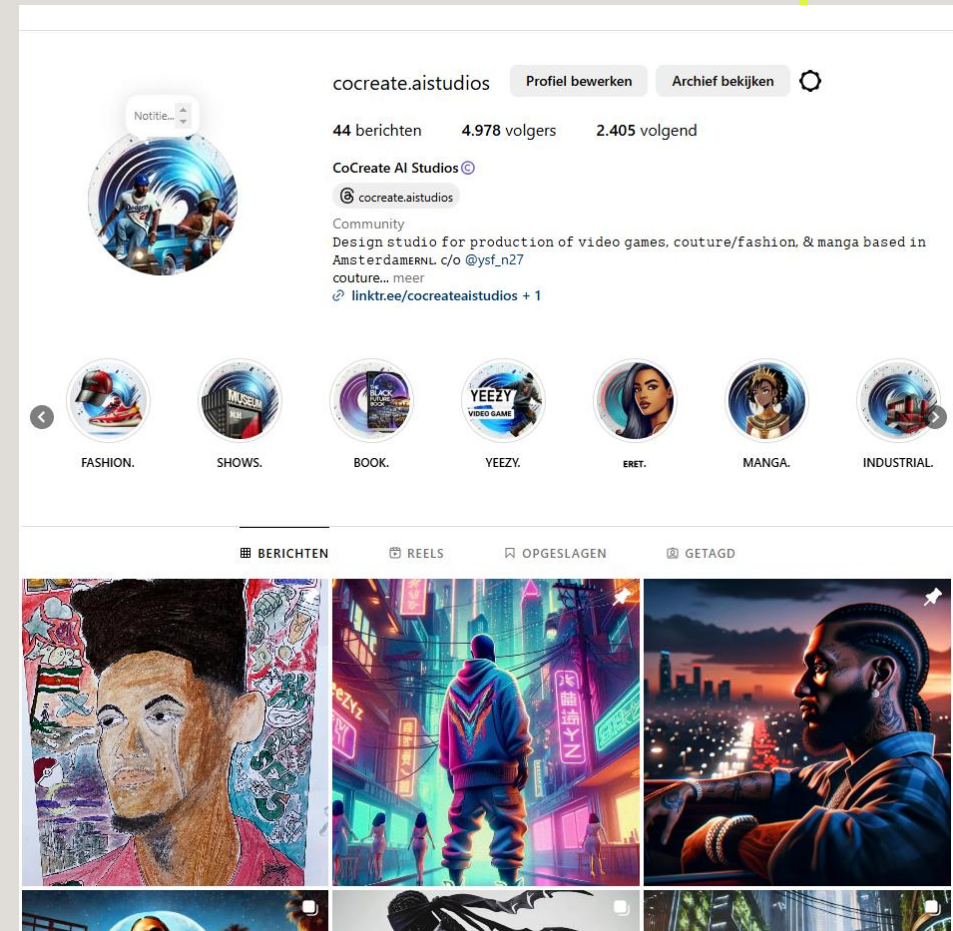

PORTFOLIO
