

DIVINA

DIVINA

Film & TV Actor

PROFILE

I am an actress who has performed in various stage plays in her youth and has been a part of several independent short films. Film specifically has grasped my attention for the long term involvement with each character and my dedication toward my performance. My main occupation has been to create commercial reels for clothing brands, which makes me feel very natural in front of the camera. This has also enabled me to embark on entrepreneurship, working with large companies as their ambassador—a key skill needed in a professional and working actor's realm of experience.
