OBJECTIVE

Results-driven professional with a strong background in disaster recovery, logistics, and environmental operations. Proven ability to manage large-scale mobilization efforts, conduct damage assessments, and coordinate emergency response strategies. Adept at team leadership, risk mitigation, and regulatory compliance, with a history of optimizing operations for efficiency and effectiveness. Seeking to leverage my expertise in disaster relief and environmental management to drive impactful solutions in emergency response and recovery efforts.

EXPERIENCE

FLEET MANAGER

VANGUARD TRANSPORTATION. | Jan 2022 - Dec 2024

As a fleet manager overseeing a driver fleet of around 50, my responsibilities included meeting customer needs while maintaining driver compliance with Vanguard and DOT regulations. Building positive relationships with driver's personally and professionally was an essential aspect of my role, as was collaborating with other departments to solve logistical issues. I implemented one-on-one meetings with driver's with high violation rates, resulting in a 20% reduction in violations. Additionally, I appraised the driver's performance and took disciplinary action when necessary. Generating monthly profit and loss reports, including reconciliation and research, was also part of my duties. I analyzed and evaluated internal work operations, such as fuel, idling, and maintenance, for asset improvement. Tracking driver's for hours and miles and planning routes for maximum productivity in given hours were also crucial components of my job.

INFANTRY SQUAD LEADER

United States Army. | May 2013 - May 2022

As part of my duties, I located and neutralized land mines that threatened troops, ensuring their safety and progress. I leveraged my knowledge of Syria and troop training to assist in planning and implementing combat operations mobilizing vehicles, troops, and weaponry. to better support my team, I pursued additional training courses and expanded my knowledge base. I also supervised logistics, communications, and maintenance, managed personnel and equipment, and successfully achieved mission objectives. I conducted combat and communications training in various environments and analyzed intelligence to coordinate reconnaissance strategy. I also made tactical decisions related to nuclear, biological, and chemical defense and managed operations relating to enemy personnel.

DISASTER RECOVERY SPECIALIST

Craft Solutions Inc. | Jan 2014 - Dec 2018

I led the efforts to improve emergency facilities and equipment in municipalities, ensuring they had the necessary resources to be prepared. I trained professionals to respond effectively to emergencies, disasters, and incidents. After natural disasters or man - made emergencies, I conducted thorough damage assessments to understand the extent of the damage and inform future planning. I always went above and beyond to provide exceptional customer support and developed strong relationships with staff, customers, and vendors.
