## Professional Summary

Audio/Video Editor and Engineer offers 15+ years in all aspects of the production industry, including concept development, brainstorming, setting up equipment on-site and in-studio (cameras, lighting, microphones, props, equipment), on-air video jockey, and editing all the “behind the scenes” footage using Final Cut Pro, Adobe Premiere Pro, Davinci Resolve, Pro Tools, and Garage Band software from pre-production to finalization.

## Work History

**Audio Editor/Engineer** - 10/2018 to 12/2022 (*Currently Contracting*)

**Dr. James Dobson's Family Talk** – Colorado Springs, Colorado

Set up a studio; manage soundboard and audio levels. I created radio programs through Protocols. Brainstormed new ideas with the broadcast team. Widespread knowledge of the OSX operating system. In-studio and on-location recordings. Accommodating special guests. Logged information from past broadcasts and other info. I assisted in part-time descriptions for radio programs. Uploaded to several different servers and radio stations.

**Front Desk Representative** - 12/2017 to 10/2018

**Lifetime Fitness** – Colorado Springs, Colorado

Customer service representative. Regularly sign members in with a smile and warm greetings. Help answer any questions that a guest or member may have about the facilities—worked with account managers for anyone looking to engage in a new membership with the club. Engage in friendly and helpful communications with members. Assisting in any membership changes a member may have. Selling ski tickets and day passes through our computer systems. Always acknowledging members on their way out and wishing them a good day.

**General Manager and Producer** - 08/2014 to 05/2017

**Panama Media Services; Dr. Daniel Daves** – Alto Boquete, Chiriquí Panama

Created audio/video projects. Managed TV studio for client shoots. Operated live production and live streaming using TriCaster Tx300 with multiple camera shots. Managed projects to completion for ministries and businesses. Oversaw all phases of video productions created, from pre- to post-production. Worked on Mac and Windows with Adobe Premier Pro and Final Cut Pro software. Researched online video tools such as videoblocks.com, audioblocks.com, and graphicstock.com for desired video production. Produced video/audio for radio programs such as Trunews, Strength4TheJourney, and Dr. Daniel Daves webinars. Set up a studio and did on-site location filming as well.

**Lead Video Engineer** - 06/2007 to 07/2014

**Youth Network TV** – Mansfield, Texas & Heredia, Costa Rica

Familiar Hardware: Mac OSX and Microsoft

Software: Adobe Suite, Apple Mac products, Final Cut Pro, Audition Audio, Protocols, GarageBand. Lead the storyboarding process and prepping the video program from beginning to end. Created bumpers and all aspects in-between of the video creation. Directed talent, training, education, and finalization for video shoots. Worked with backgrounds including set building, green screen, and lighting (portable and permanent). Script writing, planning video shoots, planning and execution of music videos, studio design, audio mixing, and correct microphone use. In charge of finding stock video and audio footage to use in programming. Learned to outsource production. Website design and creation, created shot lists, booked talent and locations, prepared the location and set for shooting, and operated 3-4 cameras during shooting and live streaming.

## Education
