Testimonials

"Terrance is incredibly easy to work with. He has good audio quality and great communicative skills. Whenever I've asked for a retake, or a specific voice, he's been able to deliver with precision. On top of following direction well, Terrance also provides excellent ad-lib lines for our mixers to play with, while at the same time not overwhelming his audio tracks with additional material."

-- Abigail Bokun, Production Coordinator at Omnia Media

"Having Terrance as the lead role in my pilot was the best casting I've ever made! He really owned the character and revealed quirks and mannerisms of the lead that I didn't know were there. Nicholson is an exceptional voice acting talent and has the best audio quality I've ever received in my toons."

-- Deion Webley, Director/Writer/Animator at Poptoonstv

"Terrance was an absolute pleasure to work with. Even while operating remotely, there weren't any hiccups while working on projects together. He immediately understood the tone of each project and made fantastic character choices for his roles. His performances were top notch. He had the intelligence to know what he needed to convey and the talent to follow through."

-- Jack McCafferty, Award Winning Short Film Writer/Director.

"I've been working with Terrance for some time now and he's become one of main go-to options for voice acting. He's a very talented and cordial actor who cares immensely about his work and the client's necessities. The best way I can describe working with Terrance would be quick and efficient. I recommend him without hesitation."

-- John Mamer, 2D Animator

"Terrance is the MOST talented collaborator I have ever worked with! His ability to not just narrate but voice act, really separates himself from the rest of the pack! His talent at bringing ANY cartoon character's voice to life is one of the most impressive feats one could ever possess!"

-- Horror Shorts Party. 2D Animator
