Interests:

Music – I love music; whether it is listening at home, going to concerts, singing, or dancing; music feeds my soul! As a country girl of 100% Czech descent, I grew up as part of a strong community and have attended many dances and live events over my lifetime.

Travel – I love traveling and seeing new places; whether locally or abroad. Fully experiencing the people, food & culture is the only way to do it!

Adventure – I believe in trying new things, creating fun, and keeping life shaken up!

People & Animals – I enjoy meeting new people and beginning new friendships. Everyone has so many experiences to offer and help grow our understanding of the world around us! I also love animals since they have a special way of bonding and bringing out smiles.
