SUMMARY

Video Editor & 3D Artist with expertise in video production, post-production, and 3D design. Skilled in editing, color correction, motion graphics, sound design, and 3D modeling to create high-quality, engaging content for social media, marketing, and branding. Proficient in industry-standard software and committed to staying updated with evolving trends to enhance visual storytelling. Focused on delivering polished, high-impact content that aligns with brand identity and audience engagement.

Work Experience

dotit.io, Ahmedabad (Nov 2024 - Jan 2025)

Video Editor & 3D Artist

- Editing and producing video content for various digital platforms to meet branding and client requirements.
- Collaborating with creative teams to ensure alignment with project goals, timelines, and desired visual styles.
- Applying advanced post-production techniques, including color correction, sound editing, and motion graphics integration.
- Managing the assembly of raw footage into polished final products that enhance audience engagement.
- Implementing feedback from stakeholders to deliver high-quality outputs in a timely manner.
- Optimizing video files for distribution across multiple channels while maintaining high production standards.

Fahm Technologies Private Limited, Ahmedabad (Jan 2023 – Jul 2023)

Frontend Developer

- Developed and maintained responsive, user-friendly web interfaces using HTML, CSS, JavaScript, and React.
- Optimized website performance through lazy loading, code splitting, and efficient asset management.
- Integrated REST APIs and third-party services to enhance web functionality and user experience.
- Implemented interactive UI components with smooth animations and transitions for better engagement.
- Conducted cross-browser testing and debugging to ensure seamless performance across all devices.
- Collaborated with designers and backend developers to create scalable, high-performance applications.

Education

Kshitij Vivan Institute, Ahmedabad

Visual Effects Artistry (In Progress)

- Focus on motion graphics, compositing, and video production.
- Hands-on experience with Adobe After Effects, Nuke, and 3D animation tools

Silver Oak University

Diploma in Computer Science (2023)

- Strong foundation in media technology, digital content optimization, and post-production techniques.
- Developed skills in software optimization, debugging, and testing processes
