home phone; 14314515896

Objective:

I would like to utilize my skill set in the sciences which are environmental science, electrical science and water treatment science, as well as my technical writing skills and sales skills. I am a quick learner and an excellent researcher who enjoys learning new material. Thank you in advance for considering me for this work position.

Experience:

I have had my own small at home business since 2015 and utilize my knowledge in science and business to offer advice. I have also been involved in sales such as Avon, Mary Kay, Amway and enjoyed being a representative for such luxury brands. Currently I am an affiliate for Once Upon a Spell, Royal Rain, David Allen Capital, Fineline Treasures, Established Titles and Aloette, they are also great brands. I have a laboratory assistant background from Lakehead University and Australian Laboratory Services that I really learned a great deal from and met great people. I have worked with the public as sales and cashiers for warehouse one and doing surveys for Statistics Canada on the census teams for 2006 and 2011. I have always given

my best with all my jobs and have learned a strong work ethic from my experience with them.

Education:

I have undergraduate credits at Lakehead University, University of Manitoba and Confederation College for topics in environmental science, electrical science and arts. I took a license for water treatment and became an operator in training and class one operator for water treatment science in Ontario. I am proficient in Microsoft Office and am good at learning new programs. My educational experience has given me about 8 years in technical writing experience which I enjoy utilizing. I translate my knowledge to performing the tasks requested of me with a positive attitude.
