

Deborah Chebet

(780) 243-7368 | debchebet@gmail.com | Edmonton, AB

Summary

Results-driven civil engineer with a solid background in infrastructure development, project management, and contract negotiation. Proficient in utilizing engineering principles to ensure projects are completed efficiently and within budget constraints. Recent experience in general labor has strengthened adaptability and teamwork skills.

- Active member of APEGA
- Supervisory and contract negotiation
- Proficient in utilizing engineering software such as AutoCAD, ArchiCAD, Civil 3D, and SAP2000 for design and analysis purposes

Skills

- Strong understanding of structural analysis and design principles for various infrastructure projects including roads, bridges, and buildings
- Skilled in developing detailed engineering plans, drawings, and specifications in accordance with regulatory standards and project objectives
- Proficient in collaborating with interdisciplinary teams including architects, contractors, and government agencies to coordinate project activities and resolve technical issues
- Proven track record of successfully negotiating complex contracts with diverse stakeholders, resulting in cost savings, risk mitigation, and strategic partnerships
- Skilled in performing physical tasks including lifting, carrying, and moving heavy objects safely and efficiently
- Excellent time management skills, ensuring tasks are completed efficiently and on schedule

Work Experience

General Labour - Construct ICS

Edmonton, AB

October 2023 - Present

- Familiar with a variety of construction and maintenance projects including site preparation, painting, and basic repairs. Able to follow blueprints, instructions, and specifications to ensure accurate and timely completion of tasks
- Knowledgeable in basic construction and maintenance tasks, including digging, organization, hauling, and general site cleanup
- Strategically place cones to create a visual barrier or guide traffic flow. Ensure cones are evenly spaced and aligned to effectively communicate road conditions or restrictions

Program Officer - New Partnership for Africa's Development (NEPAD)/African Peer Review Mechanism (APRM)

July 2022 - October 2023

Nairobi, Kenya

- Skilled in identifying key terms and conditions, conducting risk assessments, and negotiating favorable terms to protect the interests of the organization
- Proficient in crafting investment memorandums to present comprehensive information about investment opportunities to potential investors.
- Capable of identifying and evaluating key investment risks and implementing strategies to mitigate risks effectively
- Effective communicator with excellent presentation skills, capable of articulating complex project concepts and investment opportunities in a clear, concise, and persuasive manner in order to attract investors for betterment of the public health sector

Liaison Officer - Dar Al-Handasah

Nairobi, Kenya

June 2021 - June 2022

- Introduced the comprehensive environmental restoration program for any impacts the project could and would do to the surrounding area, ensuring habitats were protected and reinvested in
- Conducted weekly occupational health and safety meetings, ensuring the site crew was well informed about their occupational health and safety rights, reporting any incidents to upper management to be assessed
- Collected samples from 14 and 28-day concrete cubes, reading the projected concrete was in the correct quality markers to ensure the project would be a success after casting
- Acted as the liaison between workers and management, presenting worker questions, concerns, complaints, and comments during site and progress meetings

Education

University of Nairobi — Bachelor in Civil Engineering

Grad. 2015
