## **VIDEOGRAPHER**

“Tyler is a seasoned video producer, editor, motion & sound designer adept at telling stories in many different styles.”

### **SUMMARY**

I'm far from your basic video editor. I have over 12 years of experience in video production and podcasting, and I bring a wealth of experience to any audio / visual department. My skills include video editing, motion graphics, sound design, filming with high-end equipment, audio recording, and video lighting. I am also well-versed in all Adobe products and have taught them at a collegiate level for five years. I'm passionate about making quality content and storytelling and am committed to excellence. More than anything, I love being part of an awesome team, whether that's guiding editors, graphic designers, and film crews or working as a team player, editing, filming, and polishing. My joy is helping produce a high-quality product that hits the mark.
