SUMMARY

Dynamic professional with over 20 years of experience in audiology and voice acting, expert in effective engagements and data integrity. My key achievements include successfully leading a team to provide hearing screenings as mandated by Iowa code, impacting countless newborns, and narrating a 388-page novel for Audible, enhancing my storytelling capabilities. Seeking a Clinical Research Associate position at AbbVie, where I bring my audiology expertise and commitment to excellence in clinical research to support your mission of turning science into medicine for patients.
