Additional Tips for Formatting in Google Docs or Word:

- Use **Arial 12pt font** for body text
 - Add a thin horizontal line under your name for a subtle header effect
 - Insert a small, tasteful **icon or border** if you have one (optional)
 - Leave some white space but avoid large gaps to keep the file size balanced
-

What to do next:

1. Copy this into Google Docs or Word
2. Format as suggested above
3. Export as PDF
4. Check the file size (should be close to 64KB)
5. If it's still too small, add a tiny compressed photo or icon
