Actor Biography

Ginger Tice Pennington is a Los Angeles, CA based emerging actress, with training through SAG-AFTRA's New York Conservatory and Studio For Performing Arts Los Angeles. Her career transition from Visual Artist and Consultant into acting began in late July of 2016 when she sought after a new vehicle of creative expression. To learn the inner workings of the industry, Ginger has since worked as a Background Actor and Stand-In for nearly all of the television and movie productions filmed in New York City until the industry shut down due to the pandemic of 2020. With productions gearing up again for 2025, she moved to Los Angeles to continue her passion for film and television in a city with much better weather! When not on set or auditioning for roles, she enjoys making art, working out, travelling, and being in nature to recharge.
