## Personal Profile

My name is Irsan Arif. I am a 14 year old boy from Indonesia with a confidence of potential and a strong passion for acting. I take every responsibilities I am offered with as best as I can and will do it with optimism and a positive mindset. As I don't have much experience, I am eager to learn more. Acting has fascinated me as any art does but I have come to learn that acting is my drive, and I aim to turn this passion into something meaningful in the entertainment industry.

## Acting Experience

## My Motivations

I have always loved acting, or any art actually. But acting stuck to me the most with how we can make any characters to life, and I want to make one as well. It allows me to express emotions and appreciation for the art. I'm also motivated by my family, I want to make them proud and support them as I grow in what I love to do. With many positive comments and encouragements from my friends and teachers that I have gotten, I am confident that I can make it if I have more active experience and guidance.
