Work Experience

Agriculture Teacher/FFA Advisor

Leesburg High School-Leesburg, FL

July 2020 to Present

Dedicated educator responsible for delivering engaging, standards-based agricultural education to high school students while also serving as the lead advisor for the Leesburg FFA Chapter and chair of the Career and Technical Education (CTE) department. This role requires curriculum development, student leadership cultivation, program management, and cross-disciplinary collaboration

Makeup Artist

self employee-Leesburg, FL

January 2016 to June 2020

I was a self taught make up artist, doing make up for clients for various events ranging from weddings to prom.

- Provide customized makeup services for weddings, proms, photo shoots, and special events
- Consult with clients to assess skin tone, facial features, and desired look
- Specialize in a range of styles, including natural glam, full glam, and editorial
- Manage all aspects of freelance business, including booking, client communication, and payments
- Maintain a clean, sanitized kit and stay updated on current trends and product knowledge
- Build brand presence through social media marketing and client referrals

Retail Sales Associate

Palmetto Moon-Gainesville, FL

November 2018 to January 2020

- Delivered exceptional customer service by assisting guests with product selection, fit, and styling across apparel, accessories, and gift categories
- Processed sales transactions, returns, and exchanges using a POS system with accuracy and efficiency
- Maintained visual merchandising standards by organizing displays, restocking inventory, and supporting floor sets
- Achieved personal and team sales goals through upselling, cross-selling, and loyalty program enrollment
- Supported inventory management, including tagging, pricing, and participating in stock counts
- Promoted a welcoming, upbeat store environment aligned with Palmetto Moon's southern lifestyle brand

Certifications and Licenses

Teaching Certification

August 2020 to April 2030

Certified to teach Agriculture grades 6-12 in the state of Florida.

Agriculture Technology Specialist; AEST

Covers current and emerging technologies in agriculture, including GPS, drones, sensors, automation, and data management. Demonstrates competence in precision agriculture and tech-based problem solving.

Agricultural Mechanics; AEST

Validates skills in tool use, welding, small engines, electricity, plumbing, and equipment safety. Emphasizes hands-on mechanical knowledge relevant to the ag industry and skilled trades.

Agricultural Systems Associate; AEST

Focuses on the integration of animal, plant, and environmental systems in modern agriculture. Assesses understanding of resource management, sustainable practices, and system-based problem solving.

Agricultural Associate; AEST

Demonstrates foundational knowledge of the agriculture industry, including plant and animal systems, natural resources, ag business, and ag mechanics. Validates overall readiness for entry-level agricultural careers and post-secondary programs.

Animal Science Specialist; AEST

Certifies in-depth knowledge of animal biology, health, nutrition, genetics, reproduction, and livestock management practices. Ideal for students pursuing veterinary science or animal agriculture careers.
