Hartpury University

2022 – 2025

Level 3 Extended Technical Diploma Equine Management

Oaklands College

2020 - 2022

DDD (Distinction, Distinction, Distinction).

About Me

I am a hardworking and organised individual who is looking to begin a career in the equine industry after recently finishing my degree in Equine Science. My enjoyment for horses began from an early age my mum introducing me to the industry. From this, I have rescued and rehabilitated my own two horses alongside my studies. I have a passion for research, recently completing my dissertation on equine sleep behaviour, giving the industry insight on the potential effects thermoregulation has on equine sleep. Whatever the role, I bring a professional attitude, a willingness to grow my career, and a genuine enthusiasm for work.

EXPERIENCE

Barista: Starbucks, Sep 2021-Dec 2021

I developed upselling skills to customers along with great teamwork skills during busy periods. This role also encouraged me to present the store well with merchandise to increase sales.

Waitress/Barmaid: The Rose and Crown, Sep 2023-June 2024

I developed my confidence serving large groups, with the ability to quickly take notes to perfect my time management.

Equestrian Groom: Shenley Equestrian, *June 2024-Aug 2024*

I took pride in ensuring all jobs were kept to a high standard, along with building confidence to speaking to both customers and owners. This encouraged my organisation and time management with co-workers, and occasionally managing the yard independently.

SKILLS

Equine Science: Strong knowledge of horse anatomy, business, and nutrition, with practical and academic experience on the yard and in the lab.

Teamwork & Communication: Confident working in teams and communicating clearly in both practical and academic settings.

Presentations: Experienced in creating and delivering clear, engaging presentations to varied audiences.

IT Skills: Proficient in Microsoft Word, Excel, and PowerPoint, with regular use in data handling, reports, and dissertation.

Organisation: Excellent time management, consistently meeting deadlines and balancing study with part-time work.
