## **PERSONAL PROJECTS**

### **The Informational Media Show (2022)**

One of the shows I created on social media, a parody news show that was meant to be a satirical take on the news shows of today. Gathered research on potential news topics as well as wrote the entire script single-handedly for each episode.

### **The 90 Second Show (2023)**

My satirical take on a talk show, filled with guests with fake interest topics, trying to make each other, and the audience, laugh for 90 seconds. Hosted and directed each episode.

### **Behind the Scenes (2023-2025)**

A current podcast that I host and produce in efforts to not only build towards a future television show, but also to learn about what cool, interesting, or weird things people do and why, all in a down-home “kitchen table conversation” type format.

### **Person, Place, or Thing (2025-present)**

A self-produced, created, and hosted game show where players uncover clues to famous nouns in order to solve puzzles for cash and prizes. Hosted and produced through my college’s radio station and syndicated through my YouTube channel.
