ABOUT ME

I'm a recent 12th grade graduate from NIOS(National Institute of Open Schooling), with my 10th grade done through the IB MYP program. I've always had a creative streak, whether it's through makeup artistry, acting, or storytelling. Over the years, I've worked on film and theatre projects, assisted professional makeup artists, and developed skills in editing and communication. I'm especially drawn to the arts, with a strong interest in media and film. I'm always excited to learn new things, take on creative challenges, and be part of collaborative projects in the entertainment world.
