

MICHAEL MALICK

Creative Director/Warehouse
Supervisor/Construction Estimator

Objective

Experienced Maintenance Supervisor with over five years as a warehouse Supervisor in an epoxy manufacturing company. Now seeking to join Luxottica's team and lead maintenance operations and maximize equipment availability. Committed to prioritizing safety, enhancing technician productivity through data-driven strategies, and implementing effective preventative and reactive maintenance. Eager to leverage my expertise in electrical, mechanical, and pneumatic systems, as well as my leadership skills, to contribute to Luxottica's mission of operational excellence and innovation in the eyewear industry.

Experience

Creative Director: 2017 - 2022

Led creative efforts at Superior Epoxies & Coatings, overseeing website development, logo design, and rebranding projects. Demonstrated project management and creative direction skills, ensuring successful visual and branding outcomes. Managed hiring processes, showcasing effective team-building capabilities.

Warehouse Supervisor: 2016-2017

Worked as a forklift operator, and materials handler for Superior Epoxies. Shrink-wrapped pallets for shipping, processed raw materials, responsible for coordinating with warehouse manager about outgoing logistics.

Commercial Estimator: 2012 - 2016

Worked as an estimator and contract negotiator for two separate commercial paint companies. Proficient in interpreting blueprints and utilizing architectural computer programs. Developed strong attention to detail and analytical skills, which are valuable for creating immersive narratives.

Respiratory Therapist: 2006 - 2010

Worked in medical settings, administering respiratory medications and monitoring patient care. Honed critical thinking and problem-solving abilities, which can be applied to crafting engaging and immersive storylines. Gained experience in a fast-paced environment, emphasizing the importance of meeting deadlines and maintaining a high standard of care. Administered EKGs in a hospital setting, ensuring accurate patient care.

Skills

Organizational Skills: Demonstrated ability to efficiently manage inventory and materials during your tenure as a Warehouse Manager.

Materials Handling: Proficiency in tasks such as loading, unloading, and shrink-wrapping pallets as a Forklift Operator at Superior Epoxies & Coatings.

Logistics Coordination: Experience in coordinating with a warehouse manager about outgoing logistics as a Forklift Operator, ensuring streamlined operations.

Attention to Detail: Proven ability to interpret blueprints and meticulous architectural work as a Commercial Estimator, indicating a keen eye for detail.

Team Building: Successfully showcased team-building capabilities during your time as a Warehouse Manager, highlighting your collaborative skills.

Communication Skills: Effective communication skills honed as a Warehouse Manager, crucial for coordinating activities and ensuring order accuracy.

Physical Stamina: Proven ability to meet the physical requirements of the Material Handler I position, with experience working as a Forklift Operator.
