

## PROFESSIONAL SUMMARY

From a young age, I have immersed myself in the modeling industry, building a diverse portfolio that includes runway shows, print media, portrait modeling, and promotional events. My work has been featured in books, magazines, and museums, and I have also participated in hair shows and served as an extra in film and television.

Shifting my focus towards inclusive modeling is not merely a career change; it is a heartfelt mission. I strive to inspire women of all ages to embrace their beauty and confidence, demonstrating that success knows no age limits.
