PROFILE

Ambitious and creative aspiring actress and model, based in Hungary, with a strong foundation in commerce and marketing (graduating early 2026).

Known for combining artistic vision with business-minded discipline, I bring a bold presence, adaptability, and a deep passion for storytelling, fashion, and visual expression. Inspired by icons like Marilyn Monroe, I am currently building my acting and modeling portfolio while actively expanding my industry connections across Hungary and Europe.

Confident on camera, expressive facial and body language, fluent in English and Hungarian, and comfortable in both high-fashion and relatable, character-driven roles. I thrive in creative collaborations, adapt quickly to different styles and environments, and bring energy, professionalism, and authenticity to every project.

Open to castings, photo shoots, and collaborative projects both locally and internationally.
